

directed by **AUSTRALIAN CHAMBER CHOIR**  
**DOUGLAS LAWRENCE**

Broadly standardising the responses in relation to ancestry from Australia's 2021 census, Australians identify their origins as 57.2% Anglo-European, 33.7% Australian (including 3.8% Indigenous) and 17.4%.\*

This program could be seen as reflecting Australian society, in that it demonstrates a melting pot of cultural influences: European, Australian and Indigenous.

**PROGRAM**

**TWO RENAISSANCE MOTETS**

GIOVANNI PIERLUIGI DA PALESTRINA  
(1566–1613)

**GOLD**, is a new compilation CD of Australian choral music, including the works heard today by Gordon Kerry and Christine McCombe and five other composers: Brenton Broadstock, Tom Henry, Alan

Holley, Stephen Leek, Luke Speedy-Hutton and Malcolm Williamson.

This and other CDs are available this evening.

\* Ancestry responses are classified into broad standardised ancestry groups as a proportion of the total population. Australians can nominate up to two ancestry groups. The information above is taken from <https://en.wikipedia.org/wiki/Australians>
